

It's Not The Steel, It's the Paper!

(Or How We Spent Our Summer Vacation!)

Louisiana Oil Berm Construction 2010

An aerial photograph of a long, narrow, light-colored sandbar or island stretching diagonally across a vast, blue body of water. The sandbar has a slightly irregular, winding shape. In the lower-left quadrant, there is a small, circular, darker island. The water is a deep, uniform blue, and the sky is a pale, hazy blue.

It's Not The Steel, It's the Paper!

We Can Do This, This is What We Do!

ENGINEERS CAN BE HEROES TOO!!!!
