

*Bragging Rights*

*\$100*

- What are 5 recreational opportunities at COE projects
- Hiking
- Hunting
- Fishing
- Boating
- Camping

*Bragging Rights*

*\$200*

- What is the number of Corps Projects comprising 2% of Federal Lands 43 states
- 456

*Bragging Rights*

\$300

- What is the % of all visitors to Federal Recreation facilities that visit a Corps project
- 30%

*Bragging Rights*

\$400

- What is the percentage of the Corps budget allocated to recreation
- 6%

## *Bragging Rights*

*\$500*

- What is the % of recreation program costs that are offset by use fees
- 20%

## *Legislation*

*\$100*

- What is the first national park, established by the Corps of Engineers
- Yellowstone

*Legislation*

\$200

- When was the National Park Service formed?
- 1916

*Legislation*

\$300

- What act, in 1944, authorized the Corps to operate and maintain lakes for recreational purposes
- Flood Control Act

## *Legislation*

*\$400*

- Who was, the leader, who in 1958 believed that recreational aspects were being neglected and wanted the Corps to recognize recreation as a tangible, important function of water resource development
  - M.G Itshner

## *Legislation*

*\$500*

- What is the law, passed that ordered Corps facilities to fully consider outdoor recreation, fish & wildlife enhancement, and planning for recreational development
  - PL 89-72

## *Environmental Stewardship \$100*

- What is the USACE
  - Steward of lands and waters at water resource projects.

## *Environmental Stewardship \$200*

- What are some of the agencies the Corps often works with to plan for long term public access to natural resources
  - Federal Agencies
  - State Agencies
  - Local Agencies
  - Private Sector

## *Environmental Stewardship \$300*

- What do the Corps integrates in the management of Water Resource Development Projects.
- Natural Resources and recreational opportunities.

## *Environmental Stewardship \$400*

- What provides quantitative and qualitative data for determining resources management needs for OMPs and special status species
- Tier 1 and II Resource Inventories

## *Environmental Stewardship \$500*

- What act calls for the development and maintenance of available timber through a sustained yield program.
- Forest Cover Act

## *Recreation Operation & Maintenance \$100*

- What are the 2 regulations establish the policy for management of recreation programs, activities, and the guidance needed to carry out the policy
- ER & EP 1130-2-550

*Recreation Operation  
& Maintenance*

*\$200*

- What is the Operational Management Plan?
- A project document to outline mission related operational activities?

*Recreation Operation  
& Maintenance*

*\$300*

- What are the three types of visitor information centers and their characteristics
- Type A - Regional
- Type B - Project
- Type C - Visitor Info Facility

*Recreation Operation  
& Maintenance*

*\$400*

- What are three of the most controversial areas in the recreation program in recent years?
- Shoreline Management
- Visitor Assistance
- Fee Collection

*Recreation Operation  
& Maintenance*

*\$500*

- Who is the father of interpretation “Interpreting our Heritage”.
- Freeman Tilden

## *Recreation Modernization \$100*

- What are recreational areas that have planning and design criteria
- Campgrounds
- Picnic areas
- Beaches
- Playgrounds
- Trails
- Marinas

## *Recreation Modernization \$200*

- What are some elements of consideration for planning and design
- Health
- Safety
- Security
- Structures
- Utilities
- Landscaping
- Support items

## *Recreation Modernization \$300*

- What are some planning and design support items
- Picnic Tables
- Grills
- Fire Rings
- Benches
- Lantern Holders
- Trash Receptacles

## *Recreation Modernization \$400*

- What is EM 1110-1-400, Recreation Facilities and Customer Services Standards, used for?
- Guide the development of new recreation areas and the rehabilitation of older facilities

## *Recreation Modernization \$500*

- Why are Corps-wide recreation facility standards are necessary
- Consistency
- Modernization
- Conformity of new construction and rehab of existing facilities
- Other Reasons

## *Environmental Compliance \$100*

- More, Less
- The state can enact \_\_\_\_\_, but not \_\_\_\_\_ stringent environmental compliance requirements

## *Environmental Compliance \$200*

- At what sites on Corps of Engineer facilities does Environmental compliance affects.
- Construction sites
- Warehouses
- Leases
- Other areas

## *Environmental Compliance \$300*

- What are the “good” compliance items. (GMP).
- Good – reasonably clean, materials segregated
- evidence of spill/leak pads.

## *Environmental Compliance \$400*

- What are some state and local agencies who are part of the regulatory community
- Environmental Quality
- Health
- Wildlife/Fisheries
- Emergency Response
- Local Emergency Planning
- County Sanitation
- Fire companies

## *Environmental Compliance \$500*

- What are some steps the Corps has taken to meet the Environmental Compliance Standards
- PROSPECT courses
- criminal or civil charges for knowing violations
- Environmental Compliance Coordinators (ECCs)
- Regulatory Community
- TEAM/ERGO manuals
